

CORONAVIRUS INFO

The information below has been taken from the NHS website on Tuesday 17th March and is the advice we are following in school at this current time:

Stay at home if you have either:

- **a high temperature** – you feel hot to touch on your chest or back
- **a new, continuous cough** – this means you've started coughing repeatedly

Do not go to a GP surgery, pharmacy or hospital. You do not need to contact 111 to tell them you're staying at home but may wish to contact them for advice.

How long to stay at home:

- if you have symptoms, stay at home for 7 days.
- if you live with other people, they should stay at home for 14 days from the day the first person got symptoms.
- If you live with someone who is 70 or over, has a long-term condition, is pregnant or has a weakened immune system, try to find somewhere else for them to stay for 14 days.
- If you have to stay at home together, try to keep away from each other as much as possible.

If you would like more information, click on the link below to take you to the NHS website: <https://www.nhs.uk/conditions/coronavirus-covid-19/>

Handwashing/Hand Cream: We appreciate that we are asking the children to wash their hands much more while they are at school and understand that some children's hands are becoming sore. If you would like your child to use hand cream at school, please send it in with your child, labelled with your child's name. They will be responsible for administering it themselves. Thank you.
